MISSION

MEPCO was established in 2004 as a joint venture of the Union of Towns and Municipalities of the Czech Republic and VNG International, a daughter company of the Association of Netherlands Municipalities.

The key objective of our company is to support local and regional authorities in developing their quality assurance measures. In addition, MEPCO offers Czech good governance know-how in the international market.

MEPCO provides consulting, management, training and research services to local governments and regions, their institutions and associated businesses throughout the Czech Republic. MEPCO also offers experience and know-how in public administration in the international market. MEPCO actively supports the engagement of Czech municipalities and education institutions in international projects that highlight sharing of experience and know-how.
